

# Expand and consolidate global footprint and collaborate with international regulatory bodies

## STEP 01

Strengthening relations beyond the USA is critical for the Indian pharmaceutical industry to achieve its vision 2030.

## STEP 02

This will require the Government to create smoother international policies and foster deeper relationships with their international peers

### 01 Strengthen the exchange of regulatory best-practices

This shall help in building a quality reputation for Indian drugs in international markets

### 02 Work closely with the US FDA and other international regulatory bodies

This shall help the Government collaborate with pharmaceutical agencies and understand happenings across the globe for patient benefit

### 03 Communicate the contributions of Indian generics

Will help in regulating adherence of Indian drugs compared to generics from other countries
