Quality Culture Transformation

Dr. Ranjana Pathak
Global Head of Quality and Pharmacovigilance

Dr. Reddy’s Laboratories Limited
What is culture transformation?

Culture transformation is a shift that can take place throughout an entire organization or departments. It requires changing the hearts, mindset, and skills of the workforce to support the desired culture. It’s not about posters, credo or small talk. It’s about Who we are, What we do and the most important is What we believe.

A quality culture is one in which employees live quality in all their actions.

Key benefits of transformation

- Building a better work culture
- Increasing employee engagement
- Boosting productivity
How to achieve a culture transformation

1. Where are we now?
   - Perform assessments to diagnose the current state using
     - Surveys
     - Focused group discussion
     - Skip level meetings

2. Where do we want to be?
   - Set organizational goals and objectives so you know when you have succeeded.

3. Why do we want to change?
   - Communication with leaders (who will support the transformation) and employees (who will make the transformation happen)

A successful transformation requires:
- Engagement of leadership throughout the organization.
- Modeling and coaching the desired behaviors that will permeate the company.
Quality Culture Iceberg

Quality

Behaviors and the “facts”

What we see and usually attempt to address

Culture

Mindsets and beliefs

Thoughts, feelings, values, beliefs, needs and fears which we need to address to effect lasting change

Culture Transformation Change Model
Cultural transformation

What’s wrong with your culture?

• Not working across functions.
• Management abdicating quality.
• Conflicting strategies. No growth strategies and poor planning.
• No customer focus and alignment
• Cost reduction Vs Quality improvement/enhancement.

What should the new culture look?

• Moving from cost based to value based quality.
• Leadership commitment. Employee empowerment.
• Performance improvement, continuous process improvement.
• Process efficiency and effectiveness. Customer focus.
• No defects are passed to the next person. Teamwork & collaboration.
• Shared belief, attitudes, values, goals, and practices.
Who am I..?
Am I a company serving the patient or selling the pills?

Culture is an eco system where every stakeholders are involved, whether in term of country, in term of organization or people at department.

Speed, Price, and Quality: We have to balance all three and in time of crisis we have to give importance to one over other.

Tips and Recommendations:
- Set your own culture
- Decide what you want to be
- Common way is having survey
- Survey questions to give pulse of people and drive cultural transformation.
